

HOW TO SPOT A FAKE-CONSERVATIVE...

[] Fake-conservatives (also known as “neocons”) talk about “strong national defense” but offer no solutions to closing our own borders. They never give workable plans to stop illegal immigration.

[] Fake-conservatives may use the phrase “a balanced budget” but they are not for cutting the war budget. They promote wars overseas even though these wars are dragging America further into debt.

[] Fake-conservatives talk about new taxes to pay off the debt without ever explaining that it’s mathematically impossible to pay off the national debt with ANY amount of taxes.

[] Fake-conservatives don’t talk about the destructive nature of the Federal Reserve or the global bankers. They may mention Bernanke, but they never talk about the history of the Federal Reserve or its detrimental involvement in our country’s politics since 1913, just months before the start of WWI, the Great Depression and so on.

[] Fake-conservatives don’t talk about how global bankers make money from war.

[] Fake-conservatives don’t talk about the Bilderberg Group, the CFR, the history of the Rockefellers and the other global bankers and how they have destroyed the economy in countries around the world.

[] Fake-conservatives often demonize anyone who has questions about 9/11 -- even family members of the victims. Questions like, “Why weren’t the planes shot down?” or “Why was building 7 reported to have fallen one hour before it fell?” are not allowed in their circle because 9/11 brought us into war. Fake-conservatives want no honest discussion about why we are fighting in the Middle East.

[] Fake-conservatives don’t give you the definition of “false-flag attacks” or discuss false flag attacks that have happened throughout history.

[] Fake-conservatives don’t point out the reasons for the loss of American sovereignty, how America’s national parks came under the control of the United Nations, who is working to create the North American Union, or the global bankers’ steady work to de-industrialize America through destructive global treaties such as NAFTA and GATT, which have directly led to our current unemployment crisis.

[] Fake-conservatives vote for Banker Bailouts, Cap & Trade, Climate and Carbon Tax legislation, and other social programs that Americans cannot afford.

True conservatives are working to reduce the size of government, cut spending immediately (not just non-defense spending), audit the Federal Reserve or stopping its influence on our government altogether, adhere to the Constitution, enforcing visas of visitors, advance personal liberties, property rights and the right of self-defense and free speech. They are for congress living by the same rules their constituents must live by, minding our own business around the world, de-escalating the war and bringing troops home.

True conservatives are actively opposing the unconstitutionality of the Patriot Act, the NWO and globalism, the irresponsible printing of paper money, the surveillance of law-abiding Americans, restrictions on businesses, amnesty, incentives to be in this country illegally, more taxes and treaties that hurt the Americans -- especially working American.
